

MoonGlo Work Light Contractors Light

MoonGlo work lights create a safe and productive 360-degree glare-free environment. A single light used on a Tripod Mount will illuminate a 60' diameter area. Our lights are ideal for remote “satellite” or supplemental lighting of nighttime work and event venues.

STANDARD LIGHT	
Item	Specifications
Contractors Light	See back of datasheet for options
Contractors Light Storage Bag	9" diameter x 31" long, collapsible
Tripod Mount Options	See details below

- Set up or take down in just minutes
- Great 360-degree glare-free temporary lighting
- 300 watt LED included, optional lower wattages available
- Lights can hang from structure or mount on tripod
- 12' male/female cords to daisy chain power included, optional single 25' power cord available

COMMON USES

Temporary job site lighting, new construction, and events.

BENEFITS

Eliminates the blinding glare that comes from traditional floodlights, which is dangerous for workers, operators, drivers, and traffic.

BUILDING SIZE: 48' WIDE, 84' LONG, 18' CEILING HEIGHT

Contractors Light Options

MoonGlo Work Light builds a glare-free light with LED light source.

CONTRACTORS LIGHT MODELS†			
Lamp Option	Specifications	Light Performance*	
300 watt LED	43,000 Lumens, 120volt, 2 amps. Instant on. 25' Power Cord	@ 12' Center of Light	
		Radius	Foot Candles
		At Base	15
		10'	9
		15'	5.5
		20'	3.5
		25'	2.5
		30'	1.7

† ADDITIONAL LIGHT OUTPUT CHARTS ARE AVAILABLE FOR DIFFERENT HEIGHTS AND FURTHER DISTANCES UPON REQUEST.
* ALL METER READINGS IN FOOT CANDLES ARE TAKEN FROM WAIST HEIGHT WITH NO OTHER LIGHT PRESENT.

- Temporary lighting of buildings under construction
- 31" long by 9" diameter overall light dimensions
- Can hang from above or mount on our tripods

COMPATIBILITY

MoonGlo contractors work lights are interchangeable with all of our mounting systems. The MoonGlo Contractors Light can also be used on a MoonGlo Tripod system. Being able to quickly adapt to the unexpected requires versatility — every work zone benefits from versatility.

AREA LIGHT OPTIMIZATION

To maintain a minimum of 5 foot candles, 300 watt LED lights should be set at 12' high and placed 50' apart.

PARTS & SERVICE

All MoonGlo parts are readily available and in stock. MoonGlo is always available to discuss your lighting needs. We have many years of experience with work zone/site equipment and event lighting.
